** Please create test records using your normal service order process for the applicable addresses above.

You **MUST** place "911 TEST" somewhere in the customer name field so the call is easily identifiable as a test call at the PSAP.

These above addresses must be used to ensure the 911 database records are MSAG and centerline valid.

Any variations (such as using service provider switch location addresses) must be pre-approved by the MESB Director of 911 Services.
